# *the* ONENESS *Awakening*

“This place exists to set man free”, read the inscription on the foundation stone of the first Oneness University campus, reflecting the intent of Sri Amma Bhagavan to help humanity awaken into Oneness.

According to them, Awakening into Oneness is a continuous process of learning and growth in all spheres of life. In the material realm, growth could be perceived as success, prosperity and physical well being, while in the psychological realm, higher

levels of growth promote constructive perceptions and greater love in relationships. In the spiritual realm, growth is translated as an ability to experience every moment of life and an ever-deepening sense of connectedness with the universe and the divine.

The Oneness Process aims at facilitating and integrating these different forms of growth in the individual, thus contributing to collective transformation.

*To set  
man free*

## *Oneness - Awakening*

The Oneness – Awakening is a seven day process centered on most profound insights given by Sri Amma Bhagavan towards Awakening into Oneness, which reads as follows:

*Awakening to Suffering  
Leads to*

*Awakening of the Heart*

*Leads to*

*Awakening to Calm*

*Leads to*

*Awakening of Inner integrity*

*Leads to*

*Awakening of Listening*

*Leads to*

*Awakening to the 'what is'*

*Leads to*

*Awakening of intelligence*

*Leads to*

*Awakening of Action.*

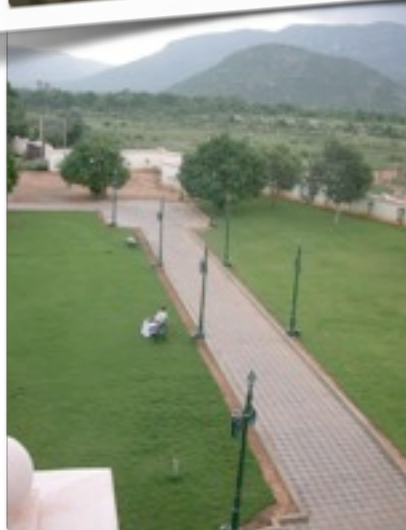

The Oneness Processes integrate four principal aspects of spirituality namely Teaching/contemplation (Nidhi-dhyasana), Practical application (Sadhana), Meditation (Dhyana) and Divine benediction (Oneness Blessing).

It is a precise process designed to bring about changes in your internal world that eventually manifests as changes in the external world. It helps you to accept and integrate the various parts of yourself with a greater sense of ease and comfort. For a break through to happen consciousness should learn certain things, which means it has to go through a process of unlearning. To learn love you need to unlearn hurt, to learn peace you have to unlearn inner struggle and conflict, for you to acquire health, you should unlearn certain negative emotions, negative energies causing it.

Evolution in consciousness reflects the way you live and experience your everyday life. The way you relate to people, your ability to connect to people, how you approach a problem or deal with your child when you yourself are in pain. In short it is all about living and enjoying life.

The guides of the Oneness University, specially trained by Sri Amma Bhagavan over a period of almost a decade guide the participants in this process. In addition to receiving the divine benediction to facilitate their personal growth, the participants of this process would also receive a special initiation from the guides empowering them to help others through the power of the Oneness Blessing. The participants could also avail of spiritual guidance from the University after their return through the periodic telephone / internet conferences organized by the guides of the Oneness University.
